

약국에서 증상 말하고 약 사기

A short conversation at a Korean pharmacy: a customer without a prescription describes cold symptoms, answers the pharmacist's questions and learns how to take the medicine.

WHAT THIS IS FOR

Learners can say their symptoms (머리가 아파요 / 열이 나요 / 콧물이 나요), answer the pharmacist's questions (처방전 있으세요? 언제부터 아프셨어요? 알레르기 있으세요?), and understand '하루 세 번, 식후 30분에 드세요'.

1 THE CONVERSATION

약사 어서 오세요. 어디가 아파서 오셨어요?

Welcome. What brings you in? (Where does it hurt?)

손님 머리가 아프고 열이 나요.

I have a headache and a fever.

약사 처방전 있으세요?

Do you have a prescription?

손님 아니요, 없어요.

No, I don't.

약사 언제부터 아프셨어요?

Since when have you been sick?

손님 어제 저녁부터요. 콧물도 조금 나요.

Since yesterday evening. My nose is running a little too.

약사 알레르기 있으세요?

Do you have any allergies?

손님 아니요, 없어요.

No, I don't.

약사 그럼 이 감기약 드세요. 하루 세 번, 식후 30분에 드세요.

Then take this cold medicine. Take it three times a day, 30 minutes after meals.
