

이중 모음 ㅜ·ㅝ·ㅞ·ㅡ 읽기

This worksheet teaches four Korean compound vowels: ㅜ, ㅝ, ㅞ and ㅡ. Each one is two vowels said quickly one after the other, as a single smooth sound. You will see which two vowels make up each letter, link three of them to familiar English sounds, and practise reading easy everyday words such as 과자, 뭐, 귀 and 의사.

WHAT THIS IS FOR

Recognize and pronounce ㅜ (wa), ㅝ (wo), ㅞ (wi) and word-initial 의 (ui) as quick two-vowel glides, and correctly read and choose the words 과자, 사과, 화장실, 뭐, 더워요, 위, 귀, 의사 and 의사.

1 THE LETTERS

LETTER	SOUND	TRACE AND COPY
ㅜ	wa (ㅏ + ㅓ said quickly) like 'wa' in 'wander' — start with rounded lips (ㅏ) and open quickly to 'a' (ㅓ)	
ㅝ	wo (ㅓ + ㅜ said quickly) like 'wo' in 'won' — start with rounded lips (ㅓ) and move quickly to ㅜ	
ㅞ	wi (ㅓ + ㅣ said quickly) like English 'we', but shorter — start with rounded lips (ㅓ) and move quickly to 'ee' (ㅣ)	
ㅡ	ui (ㅡ + ㅣ said quickly) no close English match — start with ㅡ (lips flat and relaxed, not rounded) and slide quickly to 'ee' (ㅣ); in this worksheet only at the start of a word, as in 의사
