3 PART 3. READING TIP: TWO DATES

생산연도 and 도정일 look alike, but they are different. 생산연도 shows only a year (2026년), and 도정일 shows a full date.
Many people check 도정일 first because freshly milled rice tastes better.
Dates are often written with dots: 2026.10.05 = 2026년 10월 5일.

The label above is a sample. The brand name and the phone number are made up.
