## 3 READING TIP

Pump screens often end with -세요, which means 'please do it': 선택하세요 = please choose, 넣으세요 = please insert, 누르세요 = please press.

Check your car's fuel before you choose: 휘발유 or 경유. The fuel door often has a label. If you are not sure, ask a staff member before you pump.

The screens and amounts on this sheet are examples. Real pumps may show the steps in a slightly different order.
