3 HOW TO READ AN ALERT

Read from top to bottom: bank name and date/time, then 입금 or 출금 with the amount, then a name or a purpose, and 잔액 last. After 입금, the name is usually the person or company that sent the money. After 출금, it is the person who got the money or what you paid for.
To check an alert, use 잔액. For 입금, the old balance plus the amount should equal the new 잔액. For 출금, the old balance minus the amount should equal it.

The bank name, account number, people's names, and amounts in this worksheet are made up for practice.
