

# 주말에 뭐 했어요? 지난 일 말하기

Learn how to talk about the past politely with -았어요, -었어요, 했어요 and -(이)었어요.

## WHAT THIS IS FOR

By the end, you can put verbs, adjectives and nouns into the polite past tense by choosing -았어요, -었어요, 했어요, -이었어요 or -였어요. You can also shorten vowel stems (가다 → 갔어요, 되다 → 됐어요) and fix three common spelling mistakes.

## 1 THE PATTERN

|                                                                                                                                                             |                          |                                                                                                                 |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>stem + 았어요</b><br>The last vowel of the stem is ㅏ or ㅑ.                                                                                                  | Did / was (polite past)  | 어제 친구한테 꽃을 <u>받았어요</u> .<br>I got flowers from a friend yesterday.                                              |
| <b>stem + 었어요</b><br>The last vowel of the stem is any other vowel (ㅓ, ㅕ, ㅗ, ㅛ, etc.).                                                                      | Did / was (polite past)  | 그 영화는 정말 <u>재미있었어요</u> .<br>That movie was really fun.                                                          |
| <b>noun/word + 했어요 (하다 → 했어요)</b><br>The verb or adjective ends in 하다.                                                                                      | Did / was (polite past)  | 주말에 방을 <u>청소했어요</u> .<br>I cleaned my room on the weekend.                                                      |
| <b>short form: 가 → 갔, 오 → 왔, 주 → 줬, 마시 → 마셨, 되 → 됐</b><br>The stem ends in a vowel with no final consonant. The stem and the ending join into one syllable. | Did / was (polite past)  | 어제 친구가 집에 <u>왔어요</u> . 같이 영화를 <u>봤어요</u> .<br>A friend came to my place yesterday. We watched a movie together. |
| <b>noun + 이었어요 / 였어요</b><br>Use 이었어요 after a final consonant (학생이었어요). Use 였어요 after a vowel (의사였어요).                                                       | Was (a noun) in the past | 어제는 친구 <u>생일이었어요</u> . 파티 장소는 <u>카페였어요</u> .<br>Yesterday was my friend's birthday. The party was at a café.    |

## 2 WATCH OUT

가았어요 (X) → 갔어요 (O): If the stem ends in ㅏ, don't add another 아. Just add ㅓ어요.

학생였어요 (X) → 학생이었어요 (O): 였어요 is only for nouns ending in a vowel. After a final consonant, use 이었어요.

됐어요 (X) → 뒀어요 (O): 되 + 었 becomes 뒀, not 뒐. They sound the same, but 뒐 is always a spelling mistake.
